

LOGAN COUNTY SCHOOLS MASK GUIDELINES

Logan County Schools' masks requirements will be guided by the current public health guidelines and the West Virginia Department of Education School Recovery and Guidance procedures.

[School-Recovery-and-Guidance-Document-FALL-2021-ONLINE-v8.pdf \(wvde.us\)](#)

Goal: To maximize the impact of the continuity of in-person learning and to provide a safe and healthy environment for students, Logan County Schools will implement a universal mask mandate when the DHHR map color is red, orange, or gold.

Pre-K-12 and Adult Students, Staff, and Visitors

- All staff, students, and visitors, regardless of COVID-19 vaccination status are required to wear masks indoors.
- Students with certain medical/sensory/cognitive/behavioral needs may not be required to wear a mask. An accommodation will be determined on an individual basis. Exemptions will be a school team decision and not based solely on a doctor's note. Students applying for this exemption for a medical condition will be required to submit a Student Face Covering Exemption Form completed by a healthcare provider.
- Employees with a documented medical condition prohibiting the wearing of a face mask should consult with the Director of Personnel regarding the process for requesting an exemption.
- Masks are not required outdoors but may be worn at the discretion of each individual.
- All staff and students, regardless of COVID-19 vaccination status, are required to wear masks on school busses unless an exemption has been approved.
- Music, band and choir classes will proceed as normal except that singers must wear masks indoors.
